8:30 - 2:30 Monday - Thursday

Course Description

Every student enrolled in San Jon Elementary will be assessed several ways. If it is determined by these assessments that the student will benefit from extra instruction in reading, that student will be placed in reading intervention by their classroom teacher.

For forty-five minutes every school day, each student will receive extra instruction in the five components of reading:

- phoneme awareness
 - phonics
 - vocabulary
- reading comprehension
 - fluency

My goal with every student is to help them read at their current grade level.
